HARBOUR HOUSE - FLAT 1 PARKING

From the end of September 2020 we have lost the space we have been renting for Flat 1. We are looking for another space to rent or buy but have not had any success so far.

It is usually possible to rent a daily or weekly space in a nearby privately run car park for £15 per week 1ST November to 31st March (excluding Easter) and £50 per week at all other times. (Prices correct at October 2020). The owners prefer to deal direct with you so we are unable to make that booking for you but will provide contact details.

In the winter (roughly October to mid-March) the double yellows in part of Ozone Terrace outside our garage do not apply. It is a very narrow road and often full but you may be lucky. Ensure you check exact dates on lamppost.

There are short stay public car parks near the Cobb. The main long stay car park is at the top of Cobb Hill. This is very reasonable (a couple of pounds a day when we last checked). I've tested walking it and did it in less than six minutes with no luggage but it is steep and would be a tough walk for some. Down is easier! You can pay by phone so don't need to walk up there every day.

Slightly further away there are residential streets and we can provide suggestions.

If we secure a space after you have booked it will be available for you free of charge.
